Shiva ji Inter College Keshav Nagar

2016 – 2017

High School - 81.85

Kanpur Nagar

WORK EXPERIENCE

Bugsmirror Research Private Limited 

Nov 2025 – may 2026

Backend Developer

Indore

- Worked as a Backend Developer Intern, contributing to the development of scalable backend systems and high-performance APIs using Go and modern microservices architecture.
- Developed scalable backend services and high-performance APIs using Go (Golang) and gRPC.
- Optimized data handling and storage using Firebase (Firestore) for efficiency and reliability.
- Refactored codebase to improve performance, maintainability, and system stability.
- Implemented client-driven features within a microservices architecture, delivering production-ready solutions

TECHNICAL SKILLS

Languages: Golang, C++

Frontend: React.js, Tailwind CSS

Database: MySQL, Firestore, Microsoft SQL Server installation, configuration, and administration SQL query writing, query optimization, and performance tuning Stored Procedures, Functions, Views, Triggers, and Indexing Database management, maintenance, and troubleshooting Incremental, Differential, and Full Backup Restore management

Tools: Golang, Git, Github, Postman, VS Code

PROJECTS

Complaint Portal  | [Go](#), [Reactjs](#)

- Developed a complaint management portal with user registration/login, complaint submission, per-user complaint listing, and lookup by complaint ID.
- Implemented an admin dashboard to view all complaints and update resolution status.
- Built with Go (HTTP APIs, CORS) and React (Vite, Tailwind), showcasing a full-stack architecture and clear separation between client and server.

OTP-VERIFICATION  | [Go](#), [Gin](#), [Twilio Verify](#) (SMS)

- Built a RESTful OTP verification service in Go using the Gin framework for routing and HTTP handlers.
- Integrated Twilio Verify (SMS) via twilio-go to send OTPs and validate verification codes server-side.
- Implemented request validation, JSON APIs, and environment-based configuration (.env with godotenv) for secure credential management.
- Exposed endpoints for health check, send OTP, and verify OTP with structured success/error responses

CERTIFICATIONS

- ReactJS & Redux - Udemy
- C++
- SQL
